

Hospitality & Care Options

At Corpus Christi Village your well-being and peace of mind are important to us. If you need hospitality or other care services at any stage, please discuss your needs with our Village Manager so that we can advise you on the best options available.

Access to Government-Funded Services

Local, State and Commonwealth Governments fund a range of services to assist seniors to continue living at home. These services are subject to availability and to an eligibility assessment process. A small financial contribution is usually payable when using these services. Our Village Manager can provide you with information and guidance about how to access these services.

Depending on the service arrangements, Government-funded services may be provided to you in your unit at Corpus Christi Village by the Monash City Council, or by a range of approved service providers (which may include Catholic Homes, depending on the service and funding program).

For example, Catholic Homes is an approved provider of Community Aged Care Packages, which provide a mix of personal and home care services. A referral from your General Practitioner to the local Aged Care Assessment Team will facilitate an assessment of your eligibility for a Community Aged Care Package.

Purchased Services

You also have the option to receive any of the following services from Catholic Homes on a 'user pays' basis.
